LETTER FROM THE PRESIDENT

by Heather Doty

I am pleased to say that we had so many great ideas come out at the Strategic Planning Session in July. I am very excited to move forward with many of them, but we need your help!

If you have been thinking of getting more involved with SWE, here is your chance. Volunteer opportunities abound! If you can spare one hour or several over the course of the year, we'd love to have you participate in an area that interests you with the time you have available.

Email Heather at heather.doty@swe.org or call her at 720-917-5796 to learn more about any of the opportunities below or any other ideas you have to improve SWE-RMS.

Programs/Professional Development Committee

This committee is in charge of the SWE-RMS “curriculum” of events for professional SWE members, including but not limited to professional and leadership development, technical talks and tours and networking and social events. Identified volunteer interests include:

- Professional career development experience, and an interest in helping women engineers at various career stages, to assist with development of “Career Advancement Program for the SWE Professional.”
- Volunteers who enjoy organizing, coordinating, and planning events and getting people together, and who can take a lead role in planning 1 or 2 events for the year, with assistance from the rest of the Programs Committee.
- Ideas for event topics/speakers/locations/tours (and contacts/connections with possible speakers/company locations) for section events as well as the upcoming region conference to be held at the Colorado School of Mines

Outreach Committee

We know that encouraging K-12 students to aspire to careers in STEM fields is near and dear to the hearts of SWE members. This group and its subcommittees will continue to send calls for volunteers for individual events as they come up, but we also need help planning and coordinating these opportunities.

- Girls Exploring Science, Technology, Engineering, and Math (GSTEM), our signature outreach event taking place on October 8 at the Colorado Convention Center: we need help in the areas of the luncheon (keynote speaker, meals, and logistics), media/photography, someone interested in presenting a session on Lego Robotics (information and materials supplied) and people interested in chairing/co-chairing the event in future years to shadow the process this year.
- Volunteers familiar with MESA, FIRST, Girl Scouts and/or Colorado Science Fair

Membership Committee

This committee is tasked with improving recruitment and retention for the section, as well as tracking membership data from the online database to help with our other activities.

- Work with the local collegiate sections (Mines, CSU, CU, Wyoming) to encourage continuing professional membership following graduation, including organizing a hospitality suite for graduating students at the region conference at Mines in March

MEMBER PROFILE: JESSICA BEGAY

Submitted by Casey Griswold

City of residence: Denver, CO

Family: Married my college sweetheart on 7-7-7 after 4 long years of long distance, so no matter what anyone says – long distance relationships can work. Two Cats – Pow (short for Powder) and Jazzy (short for Jasmine)

Member grade: Professional

How long have you been a member of SWE? On and off for the last 10-11 years.

How did you become involved in SWE? I got involved in SWE my freshman year of college. I was impressed by the leadership skills of the board members at the time and promised myself that I was going to grow up to be just like them.

What positions have you held? In college, I was the SWE Treasurer my sophomore year and SWE President my junior and senior year. I'm currently assisting the RMS-SWE Section with coordinating some of their Outreach activities and hope to expand the Outreach program in the years to come.

What have you enjoyed most about SWE? Why? The relationships I have developed over the years. Through SWE I have met individuals who have (a) become some of my closest friends, (b) inspired me to get to where I am today and (c) encouraged me along the way.

What is your current company/occupation/title? During the day, I work for URS as a Process Engineer. In the evenings and on the weekends, I'm a Property Manager for a local apartment complex.

How did you get to that position? Three years ago when my mother was going through some medical problems, I knew it was time for me to come back home. Since I was already changing everything – my address, my name and my job, I decided to take a chance and change career paths. Even though I absolutely loved my job at Johnson and Johnson, I wanted to see what else the world had to offer. So, I went from innovating new products to designing natural gas plants.

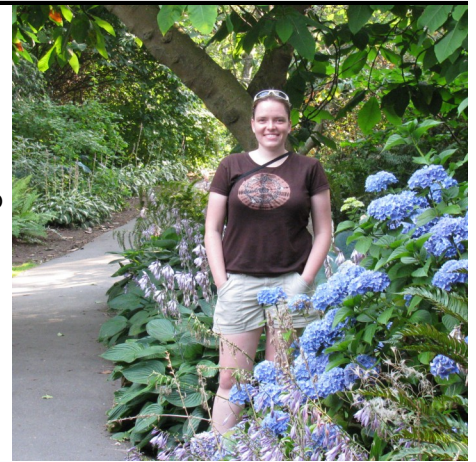

What was your college training? B.S. in Chemical Engineering at Colorado School of Mines (CSM) and M.S. in Biomedical Engineering at Drexel University in Philadelphia.

How did your college training help you get to that position? In addition to providing me with the basic technical training and knowledge that I needed, college also provided me with numerous opportunities to become involved. Through my involvement in various organizations, I gained the confidence that I needed, improved my English (Polish is my first language) and learned that no matter what the challenge, somehow you will always figure out a way to get through it.

Any words of wisdom for college students entering the work force? Think outside the box, take chances and ask lots of questions.

Hobbies/interests? During my free time, I enjoy spending time with my nieces, supporting all of the local professional teams, throwing a Frisbee around with my husband or cross-stitching.

Anything else you would like to add? GO BRONCOS!!!

“SO WHY SHOULD WE HIRE YOU?”

by Deborah Walker

If you are currently in a job search chances are you've been asked that question already. Undoubtedly, it is the most feared interview question, but one of the most common. It pays to be ready to answer it. helps to understand that the question is an invitation for you to sell yourself. This is a good thing. No one is going to hire you until they have been sold on you. This is your chance to state your value to the prospective employer. The best way to answer this question is to prepare for it like a sales person. There are three steps to selling yourself with confidence.

1. Know your product “YOU.”

Every successful salesperson knows their product inside and out. They understand the benefits of each product feature. In like manner, you must be able to articulate your transferable skills. First, take inventory of your skills. Make sure the skills you focus on are in demand for the position you seek. Next, take stock of the times of crisis when you've used those skills to solve problems. Finally, ask yourself what your employer got out of your successes on the job. Did you save time or money, increase revenue, improve service or increase productivity? Your success stories carry more weight when you can quantify the results. These success stories make up your selling points.

2. Know the challenges of the position.

Before you can tell them why they should hire you, you must understand their current challenges. After all, you couldn't sell a car unless you knew understood how it was to be used. Until you know what challenges go with the position you won't know which of your selling points to talk about. To learn about their challenges you must ask them.

In the beginning of the interview ask your interviewer, “What challenges do you see as most significant for this position in the first six months?” Take careful note of his/her response. You will learn the “hot button” issues that you must sell you.

3. Match your skills to their challenges.

Here is where you get to sell yourself. Once you understand the critical skills they need for the job you simply share with them your success stories of when you have faced similar problems and how you solved them. Be sure to include the all-important benefit your company received. Start off your value statements with phrases like:

“I found a significant savings opportunity when...”

“My team gained efficiency when I discovered how to...”

“My boss achieved his quarterly objective when I...”

Remember, even if you don't get asked “why should we hire you” it is the underlying question and the point of the whole interview. Job interviews are your chance to sell your skills, talents and expertise. Before your next interview practice good salesmanship and prepare to sell yourself like a pro.

~~~~~

## LETTER FROM THE PRESIDENT (CONTINUED ...)

by Heather Doty

- New member “welcome wagon”; make sure new members receive information about the section and our events and activities
- Outgoing individuals with ideas and enthusiasm for increasing membership and participation

### Awards and Recognition Committee

Help SWE RMS celebrate the achievements of our members! This committee’s charter is two-fold:

- To identify and encourage nominations of SWE RMS members and the section for awards at the Society level and for other local awards (CWCC, Women’s Vision, etc.)
- Implement a section individual awards program (the criteria have already been developed, we just need procedures for nominations and judging)

### Fund Development/Corporate Partnership

Our professional development and outreach programs rely on the monetary and in-kind support of our members and the companies they work for. We especially would like help with:

- Grants: identify opportunities and help compile necessary information
- Help with gathering contact information for the appropriate individuals at local companies
- Help with preparing mailings
- Members willing to serve as a liaison to their companies for programs and in-kind support (in addition to money we need printing services, meeting space and a/v equipment, etc.)

### College Scholarship Coordinator

Maintain contact with the 6 colleges and universities in the RMS area to advertise our endowed scholarships, manage the applications and coordinate the judging, present the winners at the annual awards brunch. Work in conjunction with the high school scholarship coordinator.

### Communications

- Newsletter editor to send requests and compile articles for the bi-monthly section newsletter.
- Data gathering experience to help create and conduct value-added membership and event feedback surveys. Experience with electronic/web-based survey mechanisms (such as Survey Monkey). Will assist the Programs, Outreach, and Membership committees.
- Marketing/copywriting skills to assist with marketing/logos/communication design/etc for section programs and events and materials for new and prospective members
- Web design/computer skills: Maintain the section website, and develop online forms that could be used for scholarship applications, certificates of merit, essay contest, and awards

### Colorado Engineering Council

The purpose of the Council is to coordinate and promote the interests of the constituent organizations represented in the Council by providing unified effort devoted to the advancement of the professional, technical, educational, and ethical interests and standards of professional organizations which are engaged in the various branches of engineering, architecture, or science. SWE-RMS member Kim Blair is the Secretary of CEC and would love someone to help take minutes every other month. Meetings are the 2nd Wednesday of each month, 6:00 pm dinner, 7:00 pm meeting at the Sweet Tomatoes Restaurant at Park Meadows Mall.

---

## SWE-RMS MEMBER NEWS

Submitted by Jill Tietjen

SWE-RMS member **Mary Petryszyn** has been selected as a SWE Fellow SWE-RMS member **Sandra Scanlon** will be receiving SWE's Entrepreneur Award. They will be awarded and recognized at SWE10 annual conference for women engineers.

We at SWE-RMS congratulate them for their continued participation in our section and for their personal accomplishments.

## SWE OUTREACH OPPORTUNITIES — GESTEM 2010

Submitted by Jessica Begay

### GESTEM VOLUNTEERS NEEDED OCTOBER 8, 2010

We are looking for excited and motivated individuals who are interested in keeping our girls interested in science, technology, engineering, and math.

GESTEM (Girls Exploring Science, Technology, Engineering and Math) is a half day event where girls in grades 6th and 7th have the opportunity to participate in interactive workshops that continue to excite them about science, technology, engineering, and math. GESTEM is teaming with STEMapalooza to bring you another enriching experience for girls. STEMapalooza will have many booths showcasing STEM related topics, and several will have large areas to offer activities in which the students can participate. This year SWE and STEMapalooza will support more than 750 girls attending the event, and we can only do this with the support of volunteers.

This year's event is **Friday, October 8th at the Colorado Convention Center.**

If you would like to volunteer please e-mail **Laura Gunderson** at [laura.gunderson@lmco.com](mailto:laura.gunderson@lmco.com) and she will send you a volunteer form. Volunteers' information will not be shared with anyone outside of the event committee.

Available volunteer positions:

- **Guides (100-120)** – The guide will be paired with a group of 7 girls. They will escort the girls around the STEMapalooza event and to the assigned GESTEM workshop. Volunteers from the fields of engineering, science, math or technology are preferred so that they can answer questions regarding what the girls are seeing and doing at STEMapalooza and answer questions they have about the GESTEM workshop they attend. Guide volunteers must be ready to attend the entire GESTEM event.
- **Registration** for attendees, volunteers and workshop presenters – This position will attend early in the morning to provide support for registration to attendees, volunteers, and presenters. Some volunteers who can stay for the whole event may be asked to act as reserve guides.
- **Startup Team** – First thing in the morning you will set up for the event and direct the participants, presenters and volunteers to the right locations.
- **Event Runners** – During the event handle any needs as requested by the GESTEM Coordinator/Volunteer Coordinator.

The primary need is for Guides. If your preference is for another role, please indicate that on the attachment, but if guides are needed we will be assigning volunteers to that role. If you can do more than one role, please indicate that also, e.g. Registration/Guide.

*Imagine... 750+ girls exploring an idea, an idea that you may have been curious about in your own youth...excitement is generated by the career that you hold...you give a girl support to follow her dreams of being an astronaut, a bioengineer, a forensic scientist...you are a role model, just by being you...*

---

## NEW SWE-RMS NEWSLETTER EDITOR OR EDITOR TEAM NEEDED

by Alina Shosky

SWE-RMS is looking for a new Newsletter Editor or co-editors!

Becoming the newsletter editor is a great way to get involved with SWE-RMS. Indulge in a creative activity while informing members of regional activities, neat science and engineering facts, career help, or simply to share life experiences.

If you don't think you can do it alone, ask a friend to help! It's ok to share responsibility. The point is to continue this great flow of communication. Please email Alina Shosky at [alina.shosky@gmail.com](mailto:alina.shosky@gmail.com) or Heather Doty at [heather.doty@swe.org](mailto:heather.doty@swe.org) if you are interested in stepping forward to become the new SWE-RMS Newsletter Editor.

Thanks for reading and thanks for being a SWE Member!

## COLLECTIVE WISDOM GROUP OPEN ENROLLMENT

Submitted by Jessica Begay

### *Collective Wisdom Groups—Partnerships for Advancing Women in Engineering*

- *Are you searching for a support group of your peers who are, like you, working out the kinks in their day-day job or job search?*
- *Do you have a vision of your career path, and just need a group of dedicated individuals to keep you on track?*
- *Do you want a way to identify where you want to go and what your "ideal" future might look like?*

This is an invitation to find out about the **Collective Wisdom Groups** program provided by SWE-RMS and First & Central Coaching! The Society of Women Engineers - Rocky Mountain Section, is happy to announce our partnership with First & Central Coaching, LLC to provide a new program to serve our members. Please [click here](#) or go to [www.collectivewisdomgroup.com](http://www.collectivewisdomgroup.com) for more information about Collective Wisdom Groups (CWG), some comments from current SWE members who are participating in one, and an opportunity to fill out an application.

"As women, we seem to be called to connect and form deep friendships, probably part of our human design and how we learned how to survive. We thrive when we feel connected, supported, and appreciated. Join us in participating in a Collective Wisdom Groups (CWG)—an exclusive program **provided at no cost to SWE members**, to revolutionize our networking within SWE."

Questions? Please contact Anna Meck at [Anna@FirstandCentral.com](mailto:Anna@FirstandCentral.com).

---

## SWE OUTREACH OPPORTUNITIES — KIPP SUNSHINE PEAK ACADEMY

Submitted by Jessica Begay

This is a great opportunity to work directly with some incredibly hard-working middle school students and show them how awesome engineering can be! Juliet Kissel, is a math teacher at [KIPP Sunshine Peak Academy](#) - a charter middle school in Denver and has approached me with two separate outreach activities: Girls-Only Science - Saturday School Class and STEM club

The school is located on Alameda and Tejon St ([375 S. Tejon](#)), between Valverde Elementary and Rishel Middle School. If you are interested in helping out with either activity please contact Juliet at [jkissel@kippcolorado.org](mailto:jkissel@kippcolorado.org) or 303-489-5628.

### Girls-Only Science - Saturday School Class

KIPP Sunshine Peak Academy runs Saturday school 5 times per semester as an enrichment opportunity for students. Juliet's class is specifically for 5th and 6th grade girls and includes fun science activities such as cosmetic chemistry (making lip-gloss), phases of matter (making ice cream), and engineering (creating paddle boats and marble roller coasters).

Ms. Kissel would love for some SWE members to come in and either serve as a volunteer, a guest speaker, or even as part of a group of women engineers who would like to lead some activities during one or more of the Saturday classes. Each Saturday is comprised of 3 sessions of 1 hour each, for a total of about 60 girls.

All sessions are from 9 - 12:30pm. The dates for this fall are:  
August 28th, September 11th, October 9th, October 23rd

### STEM Club

KIPP Sunshine Peak Academy is starting a STEM club at their school this year for approximately 10-15 boys and girls in grades 6-8. Juliet is seeking SWE members who would be willing to host industry tours, serve as guest speakers, or even come in periodically as mentors for FIRST Lego League/MESA or math/science tutors.

The club will meet 3 times per week: Monday, Tuesday, and Thursday from 4:30-5:30pm. Fridays or Saturdays would also be open for industry tours.

## CAMPUS

## CONNECTION

### COLORADO STATE UNIVERSITY

*Submitted by Jenna Reaves*

The Colorado State University Chapter of the Society of Women Engineers has many fun events planned for this next year. Our Women's Welcome Event, for our incoming engineering women, is planned for August 24th at the Rainbow Restaurant. The Dean of the College, Sandra Woods, will also be present to greet them. The fall edition of Evening with Industry is planned for September 15th at the Rio Grande Mexican Restaurant, please come and join our section for networking and a good meal. Plans for weekly meeting speakers and facility tours are in the works, and we would like to add more to our list. If anyone is interested in helping out in a particular area, we would welcome their support and to contact the appropriate SWE officer.

President: Jenna Reaves- [jreaves@rams.colostate.edu](mailto:jreaves@rams.colostate.edu)

Vice President: Caylee Johnson- [johnsonc@rams.colostate.edu](mailto:johnsonc@rams.colostate.edu)

Secretary: Megan Caswell- [mcaswell@engr.colostate.edu](mailto:mcaswell@engr.colostate.edu)

Treasurer: Rachel Shur- [rmschur@rams.colostate.edu](mailto:rmschur@rams.colostate.edu)

Fundraising Coordinator: Nicola Serrao- [ncserrao@hotmail.com](mailto:ncserrao@hotmail.com)

Publicity and Outreach Coordinator: Julia Taussig- [jtaussig@rams.colostate.edu](mailto:jtaussig@rams.colostate.edu)

Activities Coordinator: Dani Ossenfort- [danio@engr.colostate.edu](mailto:danio@engr.colostate.edu)

Membership Coordinator: Olivia Ferrell- [oref@rams.colostate.edu](mailto:oref@rams.colostate.edu)

Engineering College Council Coordinator: Jenny Lee- [jlee4@rams.colostate.edu](mailto:jlee4@rams.colostate.edu)

We would also like to invite SWE-RMS member to our meeting on **October 5th at 5pm**. I was thinking a panel. You could maybe introduce yourselves and your engineering past and experiences then we could open for questions. The event will be very casual but fun to get you all involved here! Dinner will be provided by our section as well!

Another event we would love to have you involved in is a White Elephant Gift Exchange Party on **December 7th at 5pm**.

I hope both of these events works for you! We really enjoy having SWE-RMS in Fort Collins and having you there to answer our many questions!

If you are interested in either of the events mentioned please contact **Jenna Reaves** at [csuswe@gmail.com](mailto:csuswe@gmail.com) or [jreaves@rams.colostate.edu](mailto:jreaves@rams.colostate.edu).

### UNIVERSITY OF COLORADO AT BOULDER

*Submitted by Amy Chen*

General meetings are an opportunity for collegiate members to learn more about professional members and the work that they are involved in. We are currently looking for guest speakers who are interested in participating or providing a presentation for our meetings. Please contact [Amy.Chen@Colorado.edu](mailto:Amy.Chen@Colorado.edu) if interested.

### COLORADO SCHOOL OF MINES

*Submitted by Chris Tippett*

The Colorado School of Mines is looking for 3-5 SWE RMS members to serve on a panel so their members can ask questions and learn how SWE benefits those in industry. **The event will be October 6th at noon on their campus in Golden.** If interested, please contact [Chris.Tippett@Merrick.com](mailto:Chris.Tippett@Merrick.com).

## SWE-RMS NETWORKING NIGHTS

Submitted by Alina Shosky

Please join us for the SWE-RMS Networking Nights.

### South Denver Metro SWE Networking Night

#### September's Event

There will be no September event, Anika will be on vacation, but she's looking forward to hosting October's even.

#### October's Event

When: Tuesday, October 12th at 5:30pm

Where: Ali Baba Grill - DTC

5380 S. Greenwood Plaza Blvd. Suite J110

Greenwood Village, CO 80111

[www.alibabagrill.com](http://www.alibabagrill.com)

Please RSVP to Anika Hammond at [anni.hammond@gmail.com](mailto:anni.hammond@gmail.com) for South Denver events

### Central Denver Metro SWE Networking Night

#### September's Event

When: Tuesday, September 21 at 5:30pm

Where: D Bar Desserts

1475 East 17th Avenue

Denver, CO 80218-1656

(303) 861-4710

[www.dbardesserts.com](http://www.dbardesserts.com)

RSVP: Please RSVP by COB, Monday, 9/20/10 to Kathy Guegel at [kathy.guegel@bp.com](mailto:kathy.guegel@bp.com)

These are informal gatherings where you can network, connect with, and get to know other women in engineering, science, and technology. These informal dinners range from small to large (4–15) depending on people's availability. Kathy Guegel hosted a July 2010 Denver networking night on July 20, 2010 at Ling and Louie's.

Hopefully you'll be able to join us for at least one of the events!

### October's Event

When: Tuesday, October 19 at 5:30pm

Where: Earls

1600 Glenarm Place, Suite 140

Denver, CO

(303) 595-3275

<http://www.earls.ca/>

RSVP: Please RSVP by COB, Monday, 10/18/10 to Kathy Guegel at [kathy.guegel@bp.com](mailto:kathy.guegel@bp.com)

### North Denver Metro SWE Networking Night

When: September TBD & October TBD

Where: TBD

Contact Angie Hall at [ahall3240@msn.com](mailto:ahall3240@msn.com) or Casey Griswold [c.l.griswold@gmail.com](mailto:c.l.griswold@gmail.com) for more information

### Fort Collins SWE Networking Night

When: October TBD

Where: TBD

Contact Judy Gates [jgates23@comcast.net](mailto:jgates23@comcast.net) for more Information

Judy Gates is planning an October networking night in Fort Collins, she will be sending out an email with more details on when and where the networking activity will be taking place.

## WELCOME NEW MEMBERS!

Submitted by Kristin Ramey

Welcome to our SWE members, new to the Rocky Mountain Section from June 2010 through August 2010:

Jillian Adams  
Catherine Andrulis  
Jessica G Begay  
E Ann Chipman  
Lam Helmick  
Catherine Rice

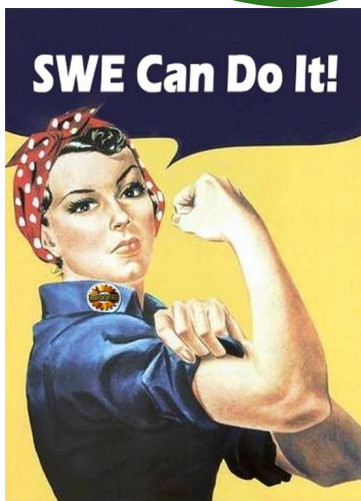

The above data is compiled from re-ports pulled from data maintained on SWE's online directory. This list was compiled of members. If you have any questions on the information listed above, any questions regarding membership, feel free to contact me at [Kristin.Ramey@swe.org](mailto:Kristin.Ramey@swe.org)

Society of Women Engineers  
P.O. Box 260692  
Lakewood, CO 80226-0692

View the SWE-RMS Newsletter Online
