

SWE-ECI  
MENTOR-MENTEE Meeting (November)

SELF..Finding ME and who I want to be

Dear Mentors-

Ready for another exciting discussion with your mentee. This month you and your mentee shall work on discovering his or her LIFE'S aspirations. As someone once told me, everyone has the potential for greatness, when he or she strives for something that truly means something to him or her.

Each of your mentees aspires to be engineer. The questions you must ask is WHY, HOW, and WHAT.

- (1) Why do you want to be an engineer?
- (2) How do you want to use engineering in the future?
- (3) What drew you in to engineering?
- (4) What mark to you want to leave on society through your chosen profession?
- (6) What do you think you will enjoy about engineering

Mentors, during this session SWE-ECI would like you to share the same information with the mentees.

- (1) Why did you want to be an engineer?
- (2) How do you use engineering in the future?
- (3) What drew you in to engineering?
- (4) What mark are you leaving or working to leave on society through your chosen profession?
- (5) What did you do to get to where you are today?
- (6) What do you enjoy about engineering

Coming from this meeting mentees should understand more about themselves, and what they want to do with engineering in their life! This packet contains materials that can be used throughout the meeting.

I have asked the mentees to keep a engineering discovery notebook throughout the process, and I would suggest each of the mentors do the same.

SWE-ECI is excited about this program. If you have any questions, concerns, or suggestions, please let us know. I enjoy getting feedback to help us improve the program!

Best Regards,

Enanga Fale  
SWE-ECI Outreach Director

"To succeed, you need to take that gut feeling in what you believe in and act on it with all of your heart." ~**Christy Borgeld**

"Efficiency is doing things right. Effectiveness is doing the right things. Success is doing the right things, right, right now." ~**Nisandeh Neta**

"When you are making a success of something, it's not work. It's a way of life. You enjoy yourself because you are making your contribution to the world." ~**Andrew Granatelli**

"The pride of success is hard work, dedication to the job at hand, and determination that whether we win or lose, we have applied the best of ourselves to the task at hand." ~**Vincent Lombardi**
